Ayurvedic and Yogic Living
Create a Life you Love

Advanced Certificate and Certificate Courses 2011
with Dr Shaun Matthews

create a life you love

The one year Advanced Certificate course in Ayurvedic and Yogic Living is a recipe to create a life you love based on the ancient wisdom traditions and practices of Yoga and Ayurveda.

You will learn how to create and maintain more flow in your life, achieve a better work/life balance, be content and more spiritually fulfilled. You will connect with your innate healing abilities, support your intuition and manage your physical, mental and spiritual wellbeing.

Ayurveda and Yoga are sister sciences, Ayurveda is focused on healthy diet and lifestyle and Yoga on living in harmony with our essential nature. Both sciences take a holistic view of the human being. There are four key components to the course: self-healing, inner stillness, cooking and nutrition, and psychology and spiritual practices.

The course includes instructions in Vedic chanting, meditation, yogic breathing, gentle yoga postures, cooking, kitchen herb tastings, discussions, philosophy and psychology. It is not a practitioner training course. Its focus is on helping you develop the skills, awareness and confidence to create a life you love.
